7 May 1984

MEMORANDUM FOR : Chief, Support Division, Office of Special Activities

ATTENTION : Mr. [REDACTED]

SUBJECT : Release of Copies of Cables Outside Office of Special Activities

25X1A

1. The following areas of Research and Development are within the action sphere of the Deputy for Technology, Office of Special Activities, and, except as noted in paragraph 2, there is no objection to an increased cable distribution such as discussed with your office and the Office of Special Activities' Executive Officer:

- Air Frames and Associated Aircraft Equipment
- Airborne Cameras and Camera Components
- Aircraft Engines
- Film Improvements
- New Navigation Systems
- Anti-radar Techniques
- Auto-pilot
- Pilot Personal Equipment
- Advanced Aircraft and Delivery systems
- Drones
- Advanced Satellite Studies
- Satellite Associated Booster Equipment
- Flight Test Report
- Research on all above systems.

2. Exceptions are in those instances where a strict holddown is in effect, particularly in the field of new equipment or systems, as well as traffic which is of a sensitive nature involving personalities involved in the various programs (normally, but not necessarily, [REDACTED] material).

25X1A

3. Deputy for Technology has no objection to regular dissemination to the Deputy Director, Science and Technology, on all above matters and urges that any distribution outside
